

## Product Feature Overview - 1.1 Release (North American Launch)

### Email

- Timely spoken notification of incoming messages
- Listen to intelligently pre-processed email designed to provide clear and intelligible speech
- Common typographical error correction
- Simplification of embedded URLs and cryptic information
- Expansion of embedded email addresses to names when known
- Context sensitive expansion of common abbreviations and acronyms
- Simplification of long subject lines
- Support for plain text, HTML, and MIME-encoded messages
- Support for incoming PINs (BlackBerry device-to-device messaging)
- Automatic language detection – across supported languages
- Listen to email messages available across multiple mailboxes including;
  - All messages
  - Only new messages
  - All unopened messages
- Compose new email by name
- Handle email as desired, when desired
- Reply with standard template or voice reply (mp3, <=60 seconds)
- Place call directly to sender (when phone number exists in address book)
- Delete
- Forward by name
- Reply sender
- Mark as unread

### Voice Interaction and General Usability

- Simple, voice-directed pairing
- Secure – authenticated and encrypted communication
- Automatic in-vehicle transition to have your email and other content read out loud when in the vehicle
- Voice activated barge-in
- Pause, resume
- Beginner or expert voice personalities
- Context sensitive help
- Spoken installation instructions
- Firmware upgrades can be performed using a USB memory storage device
- Do-not-disturb mode (activate with Bluetooth or iLANE button)
- Automatic contact access – no need to manually “synchronize” / “download”

- Simple configuration menu using buttons (factory reset, verbose / expert mode, sensitivity, speed)
- Automatic light dimming at night
- Automatic sleep and power-off modes to minimize impact on vehicle battery
- Enterprise phone software deployment (BES)
- Direct voice feedback to iLANE customer support

### Capacity

- Up to 500 messages browsed
- Up to 4000 contacts stored
- Supports multiple users and email addresses

### Operating Requirements

- Blackberry 8000+ Series (BOS 4.1 - 4.5)
- Valid email address
- Monthly subscription from iLANE.com
- iLANE account and Gateway Software
- iLANE Certified Bluetooth Headset
- Windows Mobile 5 - 6.1

### Security

AES-256 bit encryption, smartphone-to-iLANE Secure data exchange with your smartphone keeps private information localized in your vehicle.

### iLANE-Certified Bluetooth Headset

For maximum performance and listening privacy, the iLANE-Certified Bluetooth Headset included will pair directly with your iLANE. Chosen for its award-winning noise cancellation and audio technology as well as its ease of use, iLANE announces new messages, incoming calls, news and weather content and command prompts directly through the headset.

### Installation / Connection

- Simple in-vehicle accessory plug-in without tools or batteries
- Compact design for easy mounting and storage
- Quick online registration process and auto-install of software
- Helpful narrated setup to integrate iLANE with your smartphone and iLANE headset

### Connectors, LEDs, and Controls
